Introducing The ELITE Young Professional Workshop Series

WHO ARE THESE
GOOD LOOKING PEOPLE IN THE PHOTOS?

The photos lining the left side of this page are the BETA participants for **The Elite Young Professional (YP) Workshop Series** that is in the final stages of design for Creating Community, LLC.

If you have been reading the past newsletters, you know this process started with 25 phone calls to elite young professionals from across the United States to gain an understanding of what challenges they have, based on age, within their organizations. Once these calls were completed and themes emerged, the design of The Elite YP Workshop Series began.

Having already spent two weeks with this epic group of young professionals, we have already learned the workshop needs to be four weeks vs. the three weeks that was first decided upon. The conversations and topics being discussed on communication, intent, values, and branding are insightful and **require more time**.

In addition to insights, **MANY** laughs and connections were made - nearly instantaneously. The idea of bringing young professionals into their own training has proved to provide a safe, inclusive, and lively space to not only have important conversations, but to also coordinate matching outfits behind my back :).

The ELITE YP Workshop series will officially be offered to young professionals everywhere starting in **February of 2021**. Please head to: <https://www.anniefrisoli.com/eliteyoungprofessional> for more details and to register!

TESTIMONIAL

Annie is funny, authentic, engaging and genuinely interested in us as individuals and professionals.

L.I.T. was an all-around refreshing workshop series and honestly one of the best uses of my professional development time in my career. Developing connections through more traditional professional settings can take years of attending conferences so having a new network by just logging onto the computer has been amazing. I am so thankful for this opportunity and will recommend it to all my friends and colleagues!

Jessica Burke, Education Program Coordinator, Texas Recreation & Parks Society

"Annie facilitated her **Experience Design** session with my staff. It was engaging, energetic and insightful. Understanding that as professionals we have had to adjust how we collaborate with our stakeholder this session has helped our staff design engagement more intentionally." -
